

KinderSign - Download the App to iPad

For the best experience, please use the most current operating system or one of the two previous versions on your iOS device. While the app may function on other versions, those configurations are not certified and performance may vary.

- A** Tap the App Store icon on the iPad home screen.

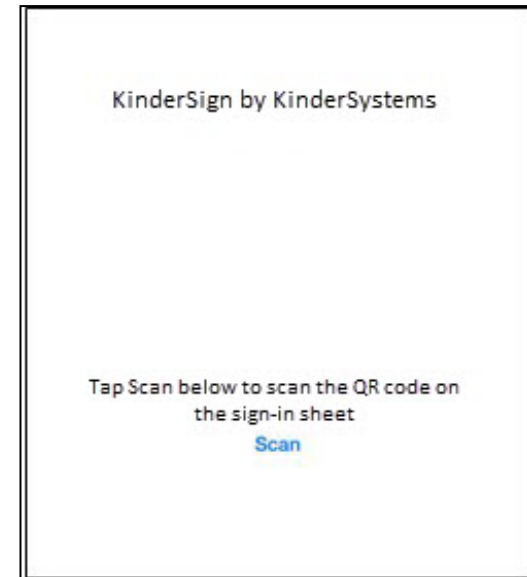

If the iPad asks if the App Store may access your location, tap **Allow**. If the iPad asks if you want to set up **Family Sharing**, tap **Not Now**.

- B** Search (top right), type **KinderSign Virginia**, then tap search.

- C** Once the KinderSign app is found , tap **GET**, then **Install** to download it. If your iPad asks you to sign into the iTunes Store, enter your Apple ID, password and tap **OK**.

Agree to the iTunes terms and conditions if asked to do so. If this is a new Apple ID, tap **Next** to go to a series of screens labeled **Complete your Apple ID**. Use these screens to provide additional information, including billing information such as your address. You are not required to provide credit card details.

- D** Once the download is complete, tap **GET**, then **Open**. **KinderSign by KinderSystems** will appear on the screen.

- E** When the iPad asks, "Do you want KinderSign to access your location while you use the app?" tap **Allow**. If it asks whether you want to set up family sharing, tap **Not now**.
