KinderSmart - Download the App to iPhone

For the best experience, please use the most current operating system or one of the two previous versions on your iOS device. While the app may function on other versions, those configurations are not certified, and performance may vary.

A Tap the App Store icon on the smart phone home screen.

If the smart phone asks if the App Store may access your location, tap **Allow**. If the smart phone asks if you want to set up *Family Sharing*, tap **Not Now**.

**B** In the search field, type *KinderSmart Virginia* and tap search.

C Once the *KinderSmart Virginia* app is located, tap **GET**, then **Install** to download it. If your smart phone asks you to sign into the iTunes Store, enter your Apple ID, password, and tap **OK**.

The very first time you use your Apple ID in the iTunes Store, you must tap **Review**, then swipe to agree to the terms and conditions, and then tap **Next** to go to a series of screens labeled *Complete your Apple ID*. Use these screens to provide additional information, including billing information such as your address. Note: You are not required to provide credit card details for the KinderSmart app.

D Once the download is complete, tap **GET**, then **Open**.

KinderSmart by KinderSystems will appear on the screen.
